## Description

Vismara Spirit Bar Cabinet is a real jewel of style, whose design owes its inspiration from an old Italian manufacturing tradition.

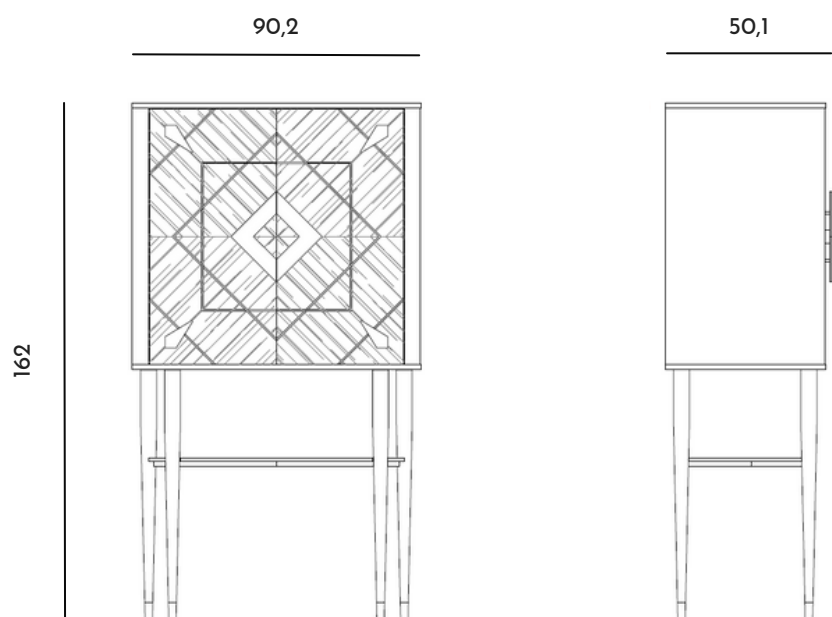

This is a piece of furniture equipped with doors, which cleverly hide an inner space dedicated to the storage of precious liquor collections. Vismara made it even more captivating by using precious ebony Makassar inlaid with maple wood and combined with gold plated handles. The inner equipment consists of shelves so as to elegantly showcase bottles and glasses, automatic switching lights and a mirror that provides the space with greater depth and brightness.
