POSH Mahjong Table

MC.GT.MJ.POSH

Description

Posh, is the new Mahjong table by Vismara. It is an automatic game table, or rather equipped with a hidden mechanism that allows the sorting of Mahjong tiles.

The playing surface is covered in velvet or leather; the control panel of the mechanism is positioned in the center, and from openings on each side, the tiles magically emerge once sorted. Functionality is enriched by a highly refined aesthetic. Posh is a contemporary game table with a timeless style. To top it all, each player station is equipped with two leather storage pockets, and a double USB port to recharge personal devices during Mahjong matches. The table is completed with 2 sets of playing tiles.
