Description

The research of a fine design and graceful lines has led Vismara to the creation of little jewels of style: Nuage and Nuagette. These sophisticated seatings give a romantic and suggestive atmosphere to the interior.

Their peculiarity is the sophisticated fabric ripple, which gives an aesthetic touch to the product, making it a precious piece of furniture.

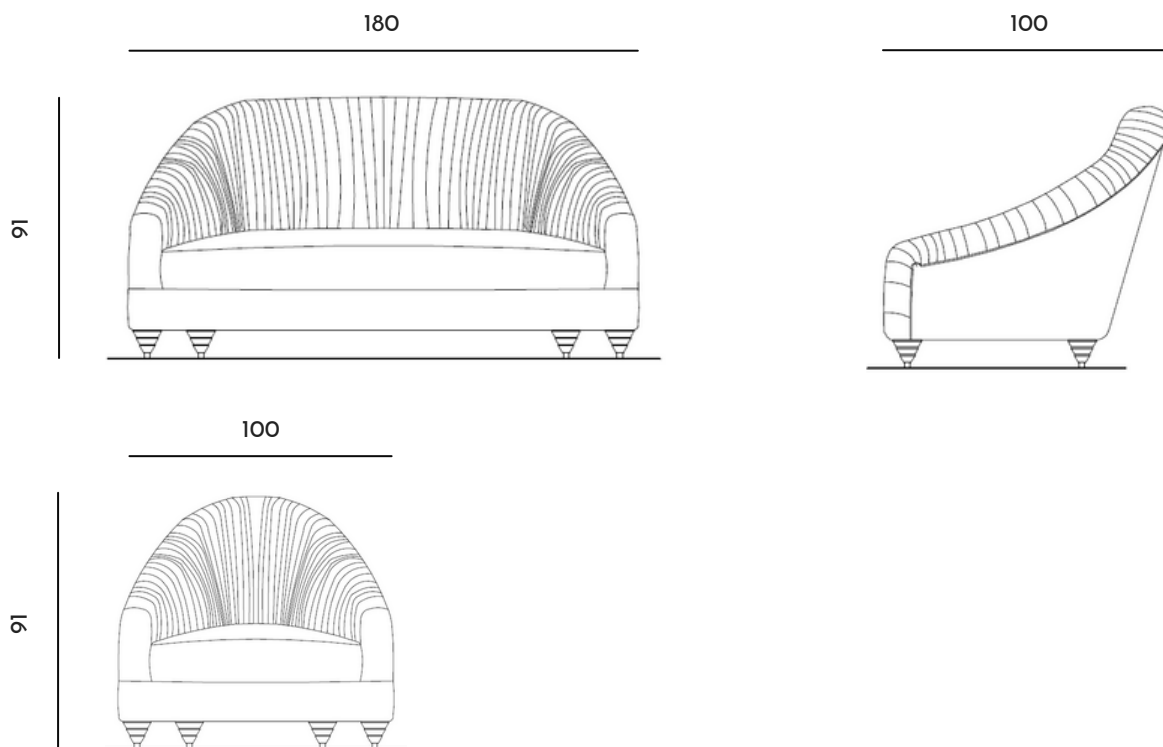

Nuage and Nuagette are able to enrich every kind of space, from more contemporary to more classic ones, thanks to their timeless charm.
